

# KEEP THE TORCH BURNING

**P**

ROTECT the freedom our forefathers gave us. Back up Uncle Sam's pledge to "make the world safe for democracy." Support "the boys" in khaki and in blue, who are braving shot and shell to uphold our nation's pride and integrity—place a stumbling block in the way of him who would attempt to rule the world by "Divine Right."

¶ The United States government needs men, munitions and supplies, and it needs them quickly. Men it can conscript; munitions it can commandeer; money it must obtain from its loyal citizens, and yet—the man or woman who invests in the new Liberty Loan is not giving anything away, but is lending money to this government, the world's safest investment, at 4% interest.

¶ Method of payments in monthly installments makes it possible for every man or woman to own the bond. Denominations as low as \$50.
